Propriétés

Optiframe elevation frame for increasing the useful height of the MAGNUM Optimum by 105 mm. Max. 3 frames per box.

Description

The MAGNUM Optimum offers flexibility and adaptability for your storage needs. By using an Optiframe, the MAGNUM Optimum can easily be raised to increase both the useful height and capacity. The Optiframe is simply placed between the bottom and the collapsible side walls, creating a sturdy elevation without compromising the stability of the pallet box.

The versatility of the MAGNUM Optimum is further enhanced by its ability to be equipped with up to three Optiframes. With each additional frame, the height of the pallet box increases by 105 mm, providing you with more space to store and transport goods. Whether it's storing large items or efficiently utilizing the available space in a warehouse, the MAGNUM Optimum with Optiframe offers a reliable and customizable solution for your storage needs.
